

# SERVI DORYL

CHEESE MOULDS EXPERT

## MOULDS AND BLOCK-MOULDS SPECIAL SHAPES

Servi Doryl offers two ranges of moulds that **can be used individually or assembled** into block-moulds : with or without bottom.

If necessary, **extensions can be proposed** with the moulds.

**Moulding and draining**  
of soft cheeses

• **Different formats** : heart, octagon, flower etc.  
• **New shapes on request**

**Injected parts**  
in copolymer polypropylene

### BENEFITS :

- Wide range of shapes and sizes
- Depending on the mould, with or without perforations
- Fully adaptable to your mechanization and production
- Possibility of plastic materials detectable by X-ray or metal detection
- Food contact capability (certified)
- Cleanability foreseen from the design phase
- No retention and all surfaces are accessible for cleaning
- Recyclable materials, controlled recycling circuits
- Possibility to take back moulds and block-moulds at the end of their life
- Reduction of the environmental footprint
