

SERVI DORYL

CHEESE MOULDS EXPERT

SQUARE, RECTANGULAR, OVAL SHAPED MOULD AND BLOCK-MOULDS

Servi Doryl offers two ranges of moulds that can be used **individually or assembled** into block-moulds : with or without bottom.

If necessary, **extensions can be proposed with the moulds.**

Moulding and draining
of soft cheeses

• **Different shapes** : square,
rectangular, oval etc.
• **New sizes on request**

• **Injected parts**
in copolymer
polypropylene

BENEFITS :

- Wide range of shapes and sizes
- Depending on the mould, with or without perforations
- Fully adaptable to your mechanization and production
- Possibility of plastic materials detectable by X-ray or metal detection
- Food contact capability (certified)
- Cleanability foreseen from the design phase
- No retention and all surfaces are accessible for cleaning
- Recyclable materials, controlled recycling circuits
- Possibility to take back moulds and block-moulds at the end of their life
- Reduction of the environmental footprint
